

----- MY HEALTHEVET PERSONAL INFORMATION REPORT -----

*****CONFIDENTIAL*****

Produced by the VA Blue Button (v12.8)

18 May 2014 @ 1510

This summary is a copy of information from your My HealtheVet Personal Health Record. Your summary may include:

- information that you entered (self reported)
- information from your VA health record
- your military service information from the department of defense (DoD).

Note: Your health care team may not have all of the information from your Personal Health Record unless you share it with them. Contact your health care team if you have questions about your health information.

Key: Double dashes (--) mean there is no information to display.

Name: Date of Birth: 12 Sep 1982

DICTATED BY: FAUST,ALLAN J ATTENDING: GLUSKI,JOSEPH M

URGENCY: routine STATUS: COMPLETED

*** Discharge Summary Has ADDENDA ***

DISCHARGE SUMMARY

RE:

DATE OF ADMISSION: 9/11/2013

DATE OF DISCHARGE 9/13/2013

TYPE OF DISCHARGE OPT/NSC

DISCHARGE DIAGNOSES:

Axis I: Schizophrenia; h/o etoh abuse

Axis II: No diagnosis

Axis III: Hypertension

Axis IV: stresses associated with chronic, symptomatic psychotic
illness

Axis V: GAF 35-40

Allergies: Sulfa

OPERATIONS OR PROCEDURES PERFORMED DURING HOSPITALIZATION:

CHIEF COMPLAINT: "I was really anxious. I feel a little better now."

HISTORY OF PRESENT ILLNESS:

Veteran w/ well documented h/o schizophrenia presented tonight accompanied by his mother and wife, who were very concerned about an acute worsening of his

symptoms over the last 24 hours. He expressed paranoia regarding his wife being unfaithful to him and that his two children were not his own. There is no apparent justification for these thoughts, but he said as a result of these beliefs he felt like stabbing himself in the heart with a knife. He has other psychotic symptoms as well. He saw Dr. Ahmed 1 day prior to his current presentation, and of him then Dr. Ahmed said: "[Veteran] Believes there is a code in TV broadcast. States TV continues to talk to him. Has paranoid delusions about the government and the military."

Per records he has been adherent with medications, having received his most recent Consta injection on 9/9/13. He has no h/o prior suicide attempts.

PERTINENT LABORATORY, OTHER DIAGNOSTIC FINDINGS: studies unremarkable

HOSPITAL COURSE: Admitted with acute exacerbation of his schizophrenia, medications adjusted and mood rapidly stabilized. He is now ready to return

Psychiatrist discharge note:

Is the Veteran receiving two or more antipsychotic medications upon discharge?

Yes. Justification must be provided below.

Veteran has had history of three or more failed trials of antipsychotic monotherapy.

1. Medication Name: Abilify from Pines Date: 2009

2. Medication Name: Haldol Date: 8-2012

3. Medication Name: risperidone Date: 2-2013

What was the level of participation while inpatient?

Comment: good

What is the readiness of patient for discharge?

Comment: fair

What is the ability for patient to care for self post discharge?

Comment: fair

What is the patient's plan and motivation for outpatient follow up care?

Comment: VA, self help, fair

What is the patient's current orientation status?

Comment: x3

What is the type and level of psychosis if present?

Comment: schizophrenia stabilized

What is the type and level of thought disorder if present?

Comment: see above

What is type and level of mood disorder if present?

Comment: not

What is the level of suicidal or homicidal ideation if present?

Comment: not

MHTC Initial Assignment

This note documents the initial assignment of the Veteran's Mental Health Treatment Coordinator (MHTC) on Jan 24,2013. The Veteran's new Mental Health Treatment Coordinator is:

MHTC Name: dr.ahmed

MHTC Contact information:

Office Phone:5172673925

Other contact:

The assignment of the MHTC and education on the role of the MHTC in the Veteran's mental health care was discussed with the Veteran, who verbally concurred with the new assignment. The MHTC's contact information was provided to the Veteran.

The Veteran's CPRS chart (i.e., PCMM) and MH Treatment Plan have been updated to reflect the new MHTC Assignment. The Veteran's new MHTC, along with the previous MHTC if applicable, are included as additional signers on this note.

Location: BATTLE CREEK VA MEDICAL CENTER

Signed By: GIMMESTAD,KATHERINE D

Co-signed By: GIMMESTAD,KATHERINE D

Date/Time Signed: 16 Jan 2013 @ 1529

LOCAL TITLE: PSYCHOLOGY INDIVIDUAL THERAPY

STANDARD TITLE: PSYCHOLOGY NOTE

DATE OF NOTE: JAN 16, 2013@15:24 ENTRY DATE: JAN 16, 2013@15:24:56

AUTHOR: GIMMESTAD,KATHERINE EXP COSIGNER: RODRIGUEZ,ROGELIO E

URGENCY: STATUS: COMPLETED

Veteran is seen today, 1/16/13, for an individual 50 minute session.

SUBJECTIVE:

Update of present condition: Veteran indicated that he is struggling with

depressive symptoms, such as a lack of motivation, feelings of

worthlessness/hopelessness, and sadness. He indicated that he had moved in with his mother about a year ago when his

stepfather who was "awesome" passed away suddenly from lung cancer.

This Writer empathized with Veteran and validated his feelings. I also educated

Veteran on depression, and the inverse relationship between depression and a) social support b) activity and c) motivation. Veteran encouraged to expand his social support system and to reach out to friends and family more. Daily exercise was also encouraged.

Psychosocial update: N/A

OBJECTIVE:

Mental status: Oriented x 4, no evidence of psychosis

Mood: Depressed, affect congruent

Anxiety: N/A

Thoughts: No evidence of psychosis.

Suicidality/threat to others: None.

Side effects or other problems with medications: Veteran indicated several adverse side effects from his recent medication change from haldol to risperidone injections. This Writer consulted with Dr. Ahmed, who came and spoke with the Veteran regarding the side effects. The Veteran and Dr. Ahmed have an appointment next week in which medications can be adjusted according to Dr. Ahmed.

Substance abuse update: Denies any problems with alcohol/recreational drugs.

ASSESSMENT

Diagnostic impressions:

Axis I: Depression Support Group

The Veteran was the only group member present. The Veteran offered input that was relative to the discussion of how depression impacts his daily life. He stated that he felt it was extremely beneficial to come to the VA and be able to talk openly about his past experiences and current depressive symptoms.

P-Empathized, encouraged and supported. Probed, clarified and engaged in active listening. Utilized Motivational Interviewing and Psychotherapeutic interviewing techniques. The diagnosis for this Veteran is Post Traumatic Stress Disorder-309.81, GAF = 50.

Axis I: Depression Support Group

-The Veteran was the only group member present. The Veteran offered input that was relative to the discussion of how depression impacts his daily life. He stated that he felt it was extremely beneficial to come to the VA and be able to talk openly about his past experiences and current depressive symptoms.

P-Empathized, encouraged and supported. Probed, clarified and engaged in active listening. Utilized Motivational Interviewing and Psychotherapeutic interviewing techniques.

Axis I: Bipolar I Disorder, Depressed, Unspecified (296.5)by history

Axis II: Deferred

Axis III: See Computerized List

Axis IV: Stress of health problems

Axis V: GAF = 55

Changes in diagnoses: Added diagnosis of depression

PLAN

Medications: Continue medications as before per Dr. Ahmed.

Psychotherapy(focus of treatment): Identification and reduction of depressive symptoms.

Response to treatment: Good

Other recommendations: Veteran referred to Depression Group and individual therapy.

Return visit: 1/30/13

Time spent with veteran: 50 minutes

Lab Test: LIPID PROFILE

Lab Type: Chemistry/Hematology

Ordering Provider: CALLEGARI, JOHN

Ordering Location: BENTON HARBOR COMMUNITY BASED OUTPATIENT CLINIC

Specimen: Serum (substance)

Date/Time Collected: 03 Apr 2013 @ 1031

Collected Location: BENTON HARBOR COMMUNITY BASED OUTPATIENT CLINIC

Test Name: CHOLESTEROL

Result: 114

Units: mg/dL

Reference Range: (100-200)

Interpretation: --

Performing Location: BATTLE CREEK VA MEDICAL CENTER 5500 ARMSTRONG ROAD ,
BATTLE CREEK, MI 49037-7314

Status: Final

Test Name: CHOLESTEROL.IN HDL

Result: 47

Units: mg/dL

Reference Range: (40-200)

Interpretation: --

Performing Location: BATTLE CREEK VA MEDICAL CENTER 5500 ARMSTRONG ROAD ,
BATTLE CREEK, MI 49037-7314

Status: Final

Test Name: CHOLESTEROL.IN LDL

Result: 62

Units: mg/dL

Reference Range: (0-100)

Interpretation: --

Performing Location: BATTLE CREEK VA MEDICAL CENTER 5500 ARMSTRONG ROAD ,
BATTLE CREEK, MI 49037-7314

Status: Final

Test Name: TRIGLYCERIDE

Result: 46

Units: mg/dL

Reference Range: (40-150)

Interpretation: --

Performing Location: BATTLE CREEK VA MEDICAL CENTER 5500 ARMSTRONG ROAD ,

Lab Test: Methylmalonic Acid~LAB CORP

Lab Type: Chemistry/Hematology

Ordering Provider: CALLEGARI, JOHN

Ordering Location: BATTLE CREEK VA MEDICAL CENTER

Specimen: Serum

Date/Time Collected: 05 Jul 2012 @ 0820

Collected Location: BATTLE CREEK VA MEDICAL CENTER

Test Name: METHYLMALONATE

Result: 147

Units: nmol/L

Reference Range: (73-376)

Interpretation: --

Performing Location: Regional Lab and Center for Esoteric Testing 1447 YORK

COURT , BURLINGTON, NC 27215

Status: Final

Comments: The reference range for methylmalonic acid has been set at +3sd above the mean for healthy blood bank donors. In the clinical assessment of patients with megaloblastic anemias a cutoff of +3sd provides greater specificity in the diagnosis of the vitamin deficiency states, despite the sacrifice of some sensitivity.

Result: 0.9

Units: mg/dL

Reference Range: (.8-1.5)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,
MI 48602-5251

Status: Final

Test Name: GLOMERULAR FILTRATION RATE.PREDICTED

Result: 106.0

Units: --

Reference Range: (>60)

Interpretation: Note: eGFR results >60 are imprecise. Many variables affect the

calculated result. Interpretation of eGFR results >60 must be monitored over time.

The GFR estimate (ml/min/1.73 m²) is applicable for ADULTS >=20yrs.

For African-American patients, multiply the GFR estimate by 1.21.

GFR estimate can be interpreted accurately only during a "steady state" of creatinine balance. GFR estimate will overestimate true GFR if serum creatinine is rising (such as acute kidney failure) and will underestimate true GFR if serum creatinine is declining (such as resolution of acute kidney failure).

A GFR estimate LESS THAN 15 for >=3 months is classified as Chronic Kidney disease (Stage 5, kidney failure).

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,
MI 48602-5251

Status: Final

Test Name: CREATININE

Result: 0.9

Units: mg/dL

Reference Range: (.8-1.5)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,

MI 48602-5251

Status: Final

Test Name: GLOMERULAR FILTRATION RATE.PREDICTED

Result: 106.0

Units: --

Reference Range: (>60)

Interpretation: Note: eGFR results >60 are imprecise. Many variables affect the calculated result. Interpretation of eGFR results >60 must be monitored over time.

The GFR estimate (ml/min/1.73 m2) is applicable for ADULTS >=20yrs.

For African-American patients, multiply the GFR estimate by 1.21.

GFR estimate can be interpreted accurately only during a "steady state" of creatinine balance. GFR estimate will overestimate true GFR if serum creatinine is rising (such as acute kidney failure) and will underestimate true GFR if serum creatinine is declining (such as resolution of acute kidney failure).

A GFR estimate LESS THAN 15 for >=3 months is classified as Chronic Kidney disease (Stage 5, kidney failure).

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,

MI 48602-5251

Status: Final

Test Name: GLUCOSE

Result: 94

Units: mg/dL

Reference Range: (50-200)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,
MI 48602-5251

Status: Final

Test Name: POTASSIUM

Result: 4.3

Units: mmol/L

Reference Range: (3.5-5.1)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,
MI 48602-5251

Status: Final

Test Name: SODIUM

Result: 146 High

Units: mmol/L

Reference Range: (137-145)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,
MI 48602-5251

Status: Final

Test Name: UREA NITROGEN

Result: 11

Units: mg/dL

Reference Range: (9-20)

Interpretation: --

Performing Location: Aleda E. Lutz VA Medical Center 1500 WEISS ST , SAGINAW,

MI 48602-5251

Status: Final

Last Updated:

VA Vitals and Readings displays your vital signs and other health readings. If you have any questions about your information please visit the FAQs or contact your VA health care team.

=====

This section shows your most recent record for each vital sign and health reading.

Vital Sign or Health Reading Measurement Date/Time Collected

Blood Pressure	138/93 mm[Hg]	23 Jan 2014 @ 1450
Pulse Rate	78 /min	23 Jan 2014 @ 1450
Respiration	16 /min	23 Jan 2014 @ 1450
Temperature	96.7 F	30 Sep 2013 @ 1532
Pain Level	0	30 Sep 2013 @ 1509

Height 69 in 30 Sep 2013 @ 1509
Weight 198 lb 30 Sep 2013 @ 1509

=====

This section shows all of the vital signs and health readings listed in your VA health record based on the dates you selected when you requested your VA Blue Button. They are grouped by the type of vital sign or health reading.

Sorted By: Type of Vital Sign or Health Reading, then Date/Time
(Descending)

Vital Sign: Blood Pressure
