

## What's in your American Gut sample?

### Your most abundant microbes:

Taxonomy	Sample
Genus <i>Bacteroides</i>	26.7%
Order Clostridiales	10.6%
Genus <i>Faecalibacterium</i>	10.3%
Family Ruminococcaceae	10.0%

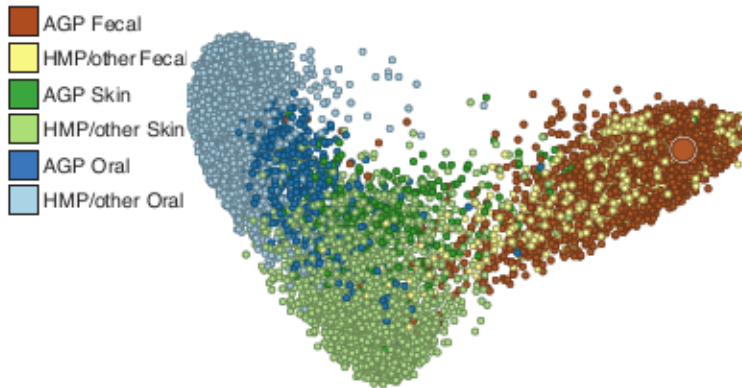

### Your most enriched microbes:

Taxonomy	Sample	Population	Fold
Genus <i>Faecalibacterium</i>	10.33%	7.02%	1x
Genus <i>Clostridium</i>	0.18%	0.01%	15x
Family Clostridiaceae	4.27%	0.64%	7x
Family S24-7	4.65%	0.42%	11x

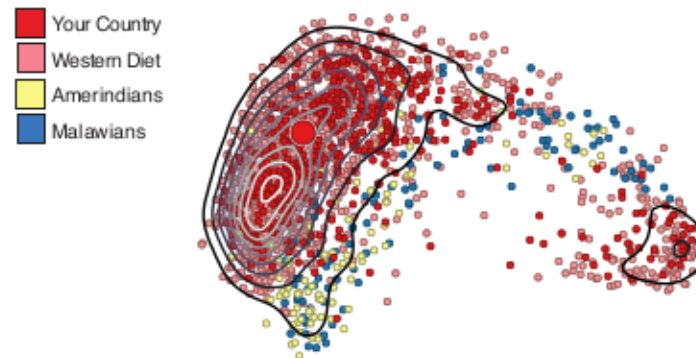

Your sample contained the following rare taxa: Genus *Propionibacterium*, Genus *Clostridium*.
